

Instruction – Crepe roses

Spiral roses

1. Cut crepe paper depending on the desired size of roses in approx. 6 - 8 cm wide and approx. 50 cm long stripes. Fold it carefully in the middle (lengthwise). Do not crease the paper, because sharp edges looks unfavorably at roses.
2. Furl the crepe paper from the side. (see figure)
3. Fix the end of the rose with tape and stick it to the heart.

Tip: You can line up the roses on a ribbon and use it to decorate gifts.

Heart of rose

1. Increase the template to your desired size.
 2. Crumple newsprint or aluminum foil to a tube (approx. diameter 3-6 cm).
 3. Shape to a heart on the template and stick the ends together.
 4. Cut a crepe paper strip with a width of 2 cm.
- Wrap the heart and stick the ends together.
